A Massachusetts paper raises the point that England is spending enough money in South Africa to feed all the starving in India, and that it comes in poor grace for her to ask the world to support her population in one part of the empire while she is extending her domain in another. The point is well taken so far as England is concerned, but christian nations cannot afford to turn a deaf ear to the cry from famished India.

Hon. Rosser Thomas, of Fannin county, has withdrawn from the race for congress, Randall having secured enough instructions to give him the nomination. His has been a marvelous race. On the 13th of last January he defeated Hon. Cecil Smith for the place as Grayson county's candidate, both residing in that county. He then carried Denton and Wise counties over home candidates. He then went to Collin county and engaged the home candidate, the Hon. J. R. Gough, in a series of debates and carried the county over him. This left only the counties of Cooke and Fannin, less than half the district. —Cameron Herald.

OPINION OF CUBA.

William Johnson of Brazos Writes—Says the Cuban Needs Fewer Laws and More Oxen.

Columbia Barracks, Cuba, April 23. To the Bryan Eagle:
For several months I have not had the pleasure of seeing the Eagle. To do without it has been quite a task as it has been in my house for several years, and nothing gave me a greater pleasure than to look over its interesting columns.

Well, so many of my friends have asked me to write them from Cuba, that I have come to the conclusion to reach them in to write them through the columns of the Eagle and tell all at once what I think of

the island. I landed in Havana on the 17th of January and during my three months stay I have seen many noted places.

The conditions of Cuba are distressing. Business is bad. The Cubans have no money with which to revive agricultural industry and absolutely no means of borrowing. Few investments of American capital have been made. As it now is the condition of Cuba will be worse before it is better; their can be no material prosperity in Cuba until the island shall have been annexed to the United States. The prices of land are still falling and in my belief or knowledge farming lands have dropped 40 per cent in value 1899 and I believe lands will be cheaper in January 1901 than they are now.

Cuba will not be annexed to the United States this year nor next year, but possibly in 1902 or 1903 or at some future day it will be annexed. As for myself I have never been able to say whether it ought to be or not, and will leave this for others who have studied it and who must see, however reluctantly, that the logical, commercial destiny of Cuba is annexation. I am in favor of free Cuba. I have become convinced that the only wise cause for the United States to follow is to set up a free Cuban republic and withdraw from the Island. The danger of turning loose a half baked republic to defend itself among the nations of the world is no greater now than it will be three years from now. Unless they aim to hold Cuba for another generation they will not then get its native administrators sufficiently backed to come up to our own high Standard of self government. The United States is pledged to make Cuba a republic, and for her good she can't do it too soon; prolonging American occupation only postpones the real reconstruction of Cuba. With the kindest intention in the world they are in reality doing Cuba an injury. prosperity cannot come to the island until American capital comes in for permanent investment. Capital will not come until the Cuban republic has had its day and the American government has returned to stay. The longer the coming of capital is postponed the worse will be the condition of the island. It is bad enough now but it will be worse.

With the exception of the tobacco growing district of Pinar del Rio province the agricultural condition of Cuba has not been materially improved during the year of occupation. Sugar is the main stay of Cuban prosperity. The best estimates for the crop of 1900 show the output will be smaller this year than last year; this means that the owners of sugar estates have been unable to obtain money with which to resume the cultivation of sugar cane. There are three reasons for it: first, most of the estates are so heavily mortgaged that borrowing is impossible; second capitalists will not invest money under a Cuban republic; Third, without free trade with the United States sugar growing will not be profitable except under favorable conditions.

The second and third reasons show that annexation is inevitable; for Cuba can not live without the assistance of the United States with free trade.

Our government has taken no direct steps to improve the agricultural and industrial condition of the island nor do I believe that United States will until Cuba has become a state in the union and her star is seen on the bosom of Old Glory, and I think then she will grow and blossom like a rose, and this rich island will multiply in wealth with her sugar, tobacco or other crops the farmer sees fit to grow.

The Cuban problem is industrial rather than political; what the Cuban people need is less laws and more oxen. Our government is giving them laws and so far has given them no oxen. Unless the farmers get oxen and resume the cultivation of their idle farms there can be no return of prosperity to Cuban agriculture.

The distribution of army rations to the poor continues. In Matanzas about 25,000 rations a month are now given out. I can't say how it is in other cities and posts. Around Cuba Mocha where the Cuban Industrial Relief Fund farms are located, the country shows no material improvement. The condition of the people of the village however is greatly improved owing to the work of relief. There are still many who become so weak from hunger that they are unable to work. It is a common thing for the superintendent to find in the fields women so weak from starvation that they have to be fed before they can go on with their work. But as it is, there will be a great deal more of it before the Cuban poor will be able to support themselves. I have had no trouble in getting work since I came and American labor can be found here at any time and at a good price.

If I remain here will have you send the Eagle to me. With many wishes for the good old sheet and those who run it I am as ever your friend,
WILLIAM JOHNSON.

KILLED BY LIGHTNING.

Two White Men and a Negro Struck in Fields in Denton County.

Denton, Tex., May 16.—George Johnson, aged about 70 years, and a negro field hand whose name is unknown here were killed by lightning near Pilot Point late Monday afternoon. Mr. Johnson's son, Bob Johnson, was knocked down and made unconscious by the same bolt. The three were returning from a field in which they had been working and all had hoes on their shoulders.

Arthur Hayden, a young farmer living two miles southeast of Aubrey, four miles away from the scene of the other accident, was killed about the same time by another bolt of lightning.

BENEFIT TO OKLAHOMA.

Rejoicing in the Territory Over the Passage of Free Home Bill.

Guthrie, O. T., May 16.—There is great rejoicing here and all over the Territory at the passage of the free home bill by the senate. Under this bill the settlers in the Cherokee outlet, 6,000,000 acres; Cheyenne and Arapahoe reservation, 3,500,000 acres; Iowa reservation, 210,000; Sac and Fox reservation, 365,000 acres; Kickapoo reservation, 88,000 acres and Pottawatomie reservation, 266,000 acres, will receive their homesteads free, as was contemplated under the original homestead act, instead of being compelled to pay from \$1 to \$1.50 per acre for the same. This will keep in the Territory about \$13,000,000, which would otherwise have gone to the government on payment for these lands, enabling farmers to improve and stock their farms and insuring an era of increased prosperity for the entire Territory.

Burns Proved Fatal.

Tyler, Tex., May 16.—Will Wade, a well-to-do farmer of Lindale, died from burns received Saturday night. Mr. Wade was preparing to rob a bee hive, and in filling a tin torch with oil some of the oil ran on his clothes, thoroughly saturating them, and in lighting the torch his clothes caught fire, entirely enveloping him in flames. At the time no one was near him to render immediate assistance, and before the flames were extinguished he was badly burned.

Walnut Log for Paris.

Denison, Tex., May 17.—At Dewey, in the western part of the Cherokee Nation men are at work cutting and trimming a walnut log which will be sent to the Paris exposition. It is the trunk of a tree supposed to be 400 years old, the first limb of which is 55 feet from the ground, and the trunk is 16 feet 5 inches in circumference. J. N. Hamilton of Scott, who ships walnut logs to Europe for furniture and finishings, has bought the log.

Flag Will Be Returned.

Columbus, O., May 16.—The flag of the Thirtieth Louisiana Confederate regiment captured before Atlanta on July 28, 1864, by the Forty-sixth Ohio, will be surrendered to the survivors of the latter regiment by the governor. The flag will be returned to the southern regiment at the Confederate reunion in Louisville June 1.

Ulam, county treasurer of Lincoln county, left her home at Chandler a few days ago, ostensibly to visit at Oklahoma City, but news came that she had been married at Corsicana, Tex., to George A. Mock. They had been lovers for years. She left to join her lover the day she was of age.

Charged with Train Robbery.

South McAlester, I. T., May 16.—R. L. Tate, John Burns and John Paterson were placed on trial in the United States court here charged with robbing the United States mail and express on the Kansas City, Pittsburg and Gulf railway near Shady Point, I. T., last June.

Still at Large.

Corsicana, Tex., May 16.—Don Trammell and Oliver Woodward, who escaped from the county jail last Saturday, are believed to be making for the mountains in the Llano country. Two men answering their descriptions were seen ten miles north of the city Saturday evening late.

Killed by a Train.

Fort Worth, Tex., May 16.—Justice of the Peace R. F. Milam was called to Bethel Switch seven miles south from here on the Missouri, Kansas and Texas railroad to view the remains of an old man who was knocked from the bridge by an outgoing passenger train and instantly killed. He was unknown.
